Academic Programs International (API) is an international educational organization dedicated to providing high quality study abroad experiences for college students. We offer semester, year and summer programs at accredited foreign universities in Europe, Latin America, the Middle East, Asia and the South Pacific. Upon completion of the academic session, our office receives an official copy of each student's transcript from the Host Institution. We, in turn, forward the transcript(s) to the college or university representative whom the student designated prior to her/his departure.

Enclosed you will find official grade reports and supporting documents for one or more of your students who participated in an API program at the **Reykjavik University** located in Reykjavik, Iceland. Reykjavik awards course credit based on the European Credit Transfer System (ECTS). Two (2) ECTS credits are considered equivalent to one (1) U.S. semester credit hour.

We have enclosed a translated copy of the transcript. Though not an official document, the API translation provides our recommendations for the number of American credit hours and grades that could be assigned for each of the courses completed abroad. We recognize that each university has its own standards and methods for translating foreign credits, so we leave it to your discretion to use our recommendations or translate credit and grades per your internal system.

API arrives at its grade recommendations for courses completed at Reykjavik by using the following conversion scale, as recommended by WES:

Grade	U.S. Letter Grade Equivalent
7.25-10	A
6-7.24	B
5-5.99	C
0-4.99	F

I invite you to contact our office at (512) 600-8900 and speak with me if you have any questions regarding the enclosed transcript(s).

Sincerely,

Jennibeth Rodriguez
